

DEBURRING
COUNTING SMALL PLASTIC COMPONENTS FOR PICKING

COUNTING SYSTEMS | KERN CCS

After deburring small plastic components, they have to be counted for picking. Manually counting the individual parts is very time-consuming and often error-prone, especially when it comes to large quantities of small parts. A counting scale allows for safe and error-minimizing stocktaking or verification in a fraction of the time that would be needed with conventional counting

Model	Counting resolution	Readout weight reference scale	Max weight quantity scale	Price
CCS 10K-6	3000000	1 mg	15 kg	€ 740.-
Suitable Accessories: <ul style="list-style-type: none">• DAkkS calibration certificate 962-128-127 - 962-128-127 - €225.-
