

LARGE BAKERIES
WEIGHING OF DOUGH PIECES

BENCH SCALES | KERN FOB

When baking rolls, so-called dough pieces (portions) are divided from the raw dough. The weight is checked on a scale, since all dough pieces should have the same weight for an optimal baking process. This is the only way that all finished rolls are baked equally and have the same golden crust

Model	Weighing capacity	Readability	Price
FOB 1K-4LM	1500 g	0.5 g	€ 335.-
