

BREWERY MACHINES MANUFACTURER  
CONTROL OF THE NOISE LEVEL IN PRODUCTION HALLS

SOUND LEVEL METERS | KERN SW

According to the Noise Protection Ordinance (CE marking), the level of noise emissions must be checked for every machine or system placed on the market. In the case of series production, this applies to one model. In the event of non-compliance with the legal regulations of max. 70 dB, improvements can arise that cause subsequent costs for the manufacturer. With a sound level meter, the noise level can be recorded quickly and reliably

Model	Sound level min.	Sound level max.	Readability	Price
SW 2000	25 dB	136 dB	0,1 dB	€ 1,110.-
<b>Suitable Accessories:</b> <ul style="list-style-type: none"><li>• Factory calibration certificate 961-281 - 961-281 - €240.-</li></ul>
