

MEDICAL LOGISTICS SERVICES
CHECKWEIGHING OF PHARMACEUTICAL INDUSTRY PACKAGES IN THE FIELD OF MEDICAL LOGISTICS SERVICES

PLATFORM SCALES | KERN IFC

When transporting pharmaceutical products, compliance with the highest safety standards is the top priority. When the goods are accepted, the package is weighed. This is used to calculate the freight costs and to check the weight according to the delivery note, which is particularly important for packages with sensitive freight (drugs). A scale with EC type approval is used here

Model	Weighing capacity	Readability	Price
IFC 30K-3	30 kg	0.001 kg	€ 540.-

<https://partner.kern-sohn.com/Segment/S10269>

* DAkkS calibrations are also possible on site
All prices are net, valid until 06.12.2025 plus shipping cost
