

ASPHALT MANUFACTURER
WEIGHING SMALL AMOUNTS OF BITUMEN AND AGGREGATE TO DEVELOP A NEW ASPHALT MIX

PRECISION BALANCES | KERN PCB

The asphalt producing industry must conduct pre-competitive research to develop new pavement. This development takes place in the laboratory, where bitumen and a wide variety of aggregates are mixed and then tested. These mixtures are mixed in very small portions. A precision balance is used to determine the weight of these small masses

Model	Weighing capacity	Readability	Weighing surface (d)	Price
PCB 6000-0	6000 g	1 g	150×170 mm	€ 170.-
Suitable Accessories: • DAkkS calibration certificate 963-128 - 963-128 - €124.-
