TESTING THE FORCE OF THE TRIGGER (TRIGGER) ON FIREARMS

DIGITAL FORCE-MEASURING DEVICES (INTERNAL SENSOR) | KERN FK

The so-called trigger (trigger) plays an important role in the manufacture of firearms. The lever mechanism, which triggers the weapon's firing mechanism, must be checked again and again to ensure safe handling of the weapon. The force that needs to be used to pull the trigger should meet a certain standard and is tested with a force gauge
