HISTOLOGICAL EXAMINATION OF TISSUES USING A MICROSCOPE

TRANSMITTED LIGHT MICROSCOPES | KERN OBL-S

The findings from the diagnosis of biopsies and tissue sections using a microscopic examination often form the basis for the further treatment of the patient. With the help of virtual microscopy, differentiated observation of the preparations is possible in detail. A microscope that can achieve a magnification of 100x is used here

| Model | Optical System | Tube | Eyepiece | Price |
|-------------|----------------|------------|----------|-----------|
| OBL 137T241 | Infinity | Trinocular | | € 2,350.- |
