

OFFICE FURNITURE RETAIL
COUNTING SMALL PARTS (SCREWS, WASHERS, ETC.) IN STOCK

COUNTING SCALES | KERN CFS

In the office furniture retail sector, small parts (screws, washers, etc.) are available for possible repairs in the warehouse and therefore the stock must be recorded continuously. The use of a counting scale is recommended here. Manually counting the individual parts is very time-consuming and often error-prone, especially when it comes to large quantities of small parts. A counting scale enables safe and error-reducing inventory taking or verification in a fraction of the time that would be required with conventional counting. This minimizes the amount of work and thus saves costs

Model	Weighing capacity	Readability	Counting resolution	Price
CFS 30K0.5	30 kg	0.0005 kg	60000	€ 340.-
Suitable Accessories: <ul style="list-style-type: none">• DAkkS calibration certificate 963-128 - 963-128 - €124.-
