

VEGETABLE FARMERS
WEIGHING A PACKAGE READY FOR SHIPPING TO DETERMINE THE FREIGHT CHARGE

BENCH SCALES | KERN FCE

Many farmers send their products directly to the end consumer after ordering. The package is put together, weighed to determine the freight fee and for registration with the parcel service provider. The package weight, which is correctly determined in advance, enables the shipping process to be completed quickly, thereby saving time, avoiding any additional postage and thus saving costs.
