COUNTING SMALL PARTS SUCH AS SCREWS OR WASHERS USING A COUNTING SCALE

COUNTING SCALES | KERN CKE

The use of a counting scale is recommended for filling assembly sets, i.e. bags with a certain number of screws, washer screws or similar that are required for assembling a specific object. Especially when it comes to small parts in large quantities, counting the individual parts manually is very time-consuming and often error-prone.

Model	Weighing capacity	Readability	Counting resolution	Price
CKE 16K0.05	16 kg	0.00005 kg	320000	€ 610.-
Suitable Accessories: <ul style="list-style-type: none">• DAkkS calibration certificate 963-128 - 963-128 - €124.-
