PROFESSIONAL MEASURING

MEDICAL INSTRUMENTS MANUFACTURER STRENGTH TEST FOR OPENING AND CLOSING SURGICAL SCISSORS

TEST STANDS (MECHANIC) | KERN TVL

To evaluate the handling of a surgical scissors, the force required to open and close the scissors is measured, thereby providing an indication of their ease of use and ensuring that they are functioning properly. These measurements are important to obtain an objective and reproducible evaluation, to achieve consistent results and to ensure quality and functionality.

Model	Max. Force	Max. Travel distance	Price
TVL 500FHS71	500 N	230 mm	€1,380
