

TECHNICAL PLASTIC PARTS MANUFACTURER  
WEIGHT CHECK OF A MOLDED PART DURING PRODUCTION

COUNTING SYSTEMS | KERN CCS

Quality control in production is important. In addition to inspection, the weight of a product is also a parameter that is checked at random during production. By adhering to specified standards, manufacturers maintain their good reputation, avoid waste due to defects or rework, and ultimately save time and money.

Model	Counting resolution	Readout weight reference scale	Max weight quantity scale	Price
CCS 30K0.01.	600000	10 mg	30 kg	€ 730.-
<b>Suitable Accessories:</b> <ul style="list-style-type: none"><li>• DAkkS calibration certificate 962-128-127 - 962-128-127 - €225.-</li></ul>
