

DRY MILK MANUFACTURERS
COUNTING SMALL PACKAGES (PAPER BAGS, ETC.) BY WEIGHT

COUNTING SYSTEMS | KERN CCS

Manufacturers who place packaging on the market should check the quantity carefully for registration with the packaging register. This can avoid unnecessary warnings. It is advisable to check the quantity of packaging because even small, light packaging can add up to a very high number over the course of a year. A counting scale can be used to count small and light packaging (paper bags, plastic bags, etc.), which can do this job quickly and accurately.

Model	Counting resolution	Readout weight reference scale	Max weight quantity scale	Price
CCS 10K-6	3000000	1 mg	15 kg	€ 740.-
Suitable Accessories: <ul style="list-style-type: none">• DAkkS calibration certificate 962-128-127 - 962-128-127 - €225.-
