

## CONSULTING ENGINEERS MOISTURE MEASUREMENT ON HOUSE WALLS AND FLOORS

### MOISTURE ANALYSER | KERN DBS

If there is moisture damage to a building, a building expert or civil engineer takes a plaster sample to analyze the moisture content. Using a moisture meter, the values can be determined and documented immediately. This provides a reliable basis for an expert opinion and enables well-founded decisions to be made about necessary renovation measures.

Model	Weighing capacity	Readability	Price
DBS 60-3	60 g	0.001 g	€ 1,650.-
