

ORGANIC FRUITS AND VEGETABLES FARMER
WEIGHING BOXES OF TROPICAL FRUITS STACKED ON A TRANSPORT TROLLEY

FLOOR SCALES | KERN NFC

Bergamot is harvested in southern Italy between November and March. Crates filled with the fruit are stacked on a transport trolley and taken to a cooperative for weighing. A drive-through scale is used for weighing. This means that the fruit does not have to be reloaded, which benefits the sensitivity of the fruit.
