

DISHWASHERS MANUFACTURER
ASSEMBLY OF A CIRCUIT BOARD UNDER THE MICROSCOPE

TRANSMITTED LIGHT MICROSCOPES | KERN OBN-13

Manual soldering plays an important role in the production of custom printed circuit boards. For very small components, this is a task that can only be accomplished with a microscope. This protects the eyes and prevents incorrect placement of the board.

Model	Optical System	Tube	Eyepiece	Price
OBN 135	Infinity	Trinocular	Eyepiece HWF 10x / Ø 20mm with anti-fungus, high eye point	€ 1,690.-
