

WASABI MANUFACTURER (JAPANESE HORSERADISH)
WEIGHING PARTS OF THE WASABI PLANT FOR SALE

PRECISION BALANCES | KERN PNJ

Wasabi cultivation is a relatively new discipline in Europe. Wasabi paste is made from the rhizome and stem, or the plant and parts of the plant are sold for cultivation. These parts of the plant can be compared to the sale of saffron threads. The price is calculated according to tenths to hundredths of a gram of the herb. A precision balance with high resolution is therefore essential to determine the exact price of the plant or plant parts. This generates customer satisfaction and a fast process flow. Invalid search result.

Model	Weighing capacity	Readability	Weighing surface (d)	Price
PNJ 3000-2M	3200 g	0.01 g	190×190 mm	€ 890,-
