

PHYTO MEDICATION MANUFACTURERS
WEIGHT CONTROL OF 10-20 PARCELS IN SHIPPING

FLOOR SCALES | KERN UFB

Phytotherapy is the use of plants or their preparation as medicinal products (phytopharmaceuticals). Medical cannabis also belongs to the group of phytopharmaceuticals and is usually sent as a whole plant to doctors, pharmacies and medical institutions. The fully packed packages, the weight of which has already been determined, are forwarded to the dispatch department. There, 10-20 parcels are weighed again and controlled on a pallet scale. This is used for checking and at the same time determining the freight charge and registering with the parcel service provider. The package weight, which is correctly determined in advance, enables the shipping process to be processed quickly, saves time, avoids any postage costs and thus saves costs

Model	Weighing capacity	Readability	Price
UFB 600K200M	600 kg	0.2 kg	€ 1,250.-
Suitable Accessories: <ul style="list-style-type: none">• DAkkS calibration certificate 963-130 - 963-130 - €215.-
