

DESSERTS MANUFACTURER
PRECISE WEIGHING OF INGREDIENTS FOR THE PRODUCTION OF MOCHIS

PLATFORM SCALES | KERN EOC

Asian desserts such as sweet mochis can also be obtained on the Internet. Only a few basic ingredients are required for desserts - to conjure up a multitude of variations. However, their preparation requires discipline and precision, as well as knowledge of the ingredients. When making mochis in large quantities, the ingredients such as rice, flour, sugar, etc.. weighed very carefully. The exact weighing of the ingredients or the adherence to a given recipe is crucial for a product of high quality
