

DEHYDRATED VEGETABLES AND DRIED FRUIT PRODUCERS
IN-PROCESS CONTROL OF THE FILLING PROCESS

PLATFORM SCALES | KERN EOC

An in-process control of the filling process of dried fruit in containers of a certain size ensures the exact filling quantity during portioning. Due to the ongoing check-point-like control, any necessary readjustment can be carried out quickly and overfills (reduces the return) and underfills (generates complaints) are avoided. This quality control is important and generates customer satisfaction

Model	Weighing capacity	Readability	Price
EOC 30K-4	15 kg; 35 kg	0.0005 kg; 0.001 kg	€ 390.-
Suitable Accessories: <ul style="list-style-type: none">• DAkkS calibration certificate 963-128 - 963-128 - €124.-
