COUNTING KNICK SACHET PORTION PACKS FOR SHIPPING

COUNTING SYSTEMS | KERN CCS

Small kink sachet portion packs are shipped in batches of 100-10000. The use of a counting scale is recommended here. Manually counting the individual parts is very time-consuming and often error-prone, especially when it comes to large quantities of small parts. A counting scale allows for safe and error-minimizing stocktaking or verification in a fraction of the time that would be needed with conventional counting. This saves time and therefore costs.
